

The drawing shows a technical architectural detail of a channel. A central octagonal label with a double-line border contains the text "PATRIMONIO UC". The label is positioned over a channel cross-section. Below the channel, a dimension line indicates a distance of 0.20 between two vertical lines. The drawing includes various lines representing the channel's profile, reinforcement, and construction details. There are also some faint, irregular shapes scattered across the drawing, possibly representing debris or specific material textures.
