Dear Mr. Rojas,

We have seen that Horst Erdmann Verlag is advertising the German edition of your novel: CHILENISCHE BEICHTE.

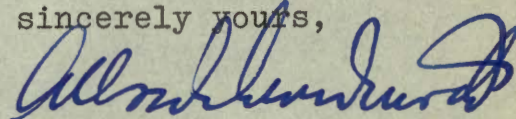

Judging from the advertising copy we feel sure that your novel must be of interest to Scandinavian readers too. Therefore, we would ask you kindly to give us option on your book for Denmark, Norway, Sweden, and Finland, for which purpose we would ask you to provide us with four copies of the book, namely one working copy per country.

However, if an English edition exists we should prefer to work with this one. If not, we would ask you to allow us to ask the German publisher to send us copies of the German edition when it has appeared.

Further it is always a big help for us to know something about the author, and therefore we should like to know whether the book is being translated into other languages, and whether you have written other books.

We are looking anxiously forward to hearing from you, and remain meanwhile,

sincerely yours,

Albrecht Leonhardt
