Presente.

Dear Sra. Yáñez:

Thank you very much for sending me the book. So far I have only had a chance to dip into it, but the little I have read sounds most interesting, and I look forward to reading it on my plane trip. There is always a special pleasure in reading the book of someone you have met, for a book is a projection of the writer as a child is of its mother, and it is intriguing to look from the one to the other.

I am sorry not to have had more time to talk with you, but perhaps I shall have the good fortune to be sent back to Chile.

Sincerely yours,

*Hazel O'Hara*
