Dear Sir,

Your recent letter to Dean Neville has been handed to me by President Fox. I am much interested to learn of the coming visit of Sra. Yanez to the United States and to Canada. In my opinion we have too few opportunities to meet and talk with distinguished representatives of other countries in the Americas.

Would you kindly furnish me with some additional information concerning Sra. Yanez? I should like to have a list of lecture topics upon which she is to make addresses at universities in the United States. Does she speak English well enough to address a large group of students? Could you inform me concerning the fees connected with the visit of Srz. Yanez?

Thank you very much for calling to our attention the coming visit of your interesting compatriot. I will be very grateful for the information requested above.

Sincerely yours,

Robert W. Torrens
