My dear Mr. Sloan:

This is to present Mr. Vicente Garcia Huidobro, one of the youngest and foremost South American poets and writers. He is going to California to study moving picture production and then write about it.

I believe that nobody can give him a better outlook of the whole matter than you, with your almost Latin, artistic sensitiveness and your thorough knowledge of the technical part of motion picture making. I thank you in advance for any courtesies shown to my friend, Mr. Huidobro.

Since the last time I spoke to Mrs. Sloan in New York by phone, I haven't heard neither from her or from you. Isabel has asked me several times for news of both of you. She will probably be back in two or three months, and I am sure will communicate with you immediately upon her arrival.

Please present my best regards to Mrs. Sloan, and wishing you both the very best of life and plenty of success, I am

Sincerely yours,

Jose U. Torres-Perona

JMTP/HM
